

Jim Bakula

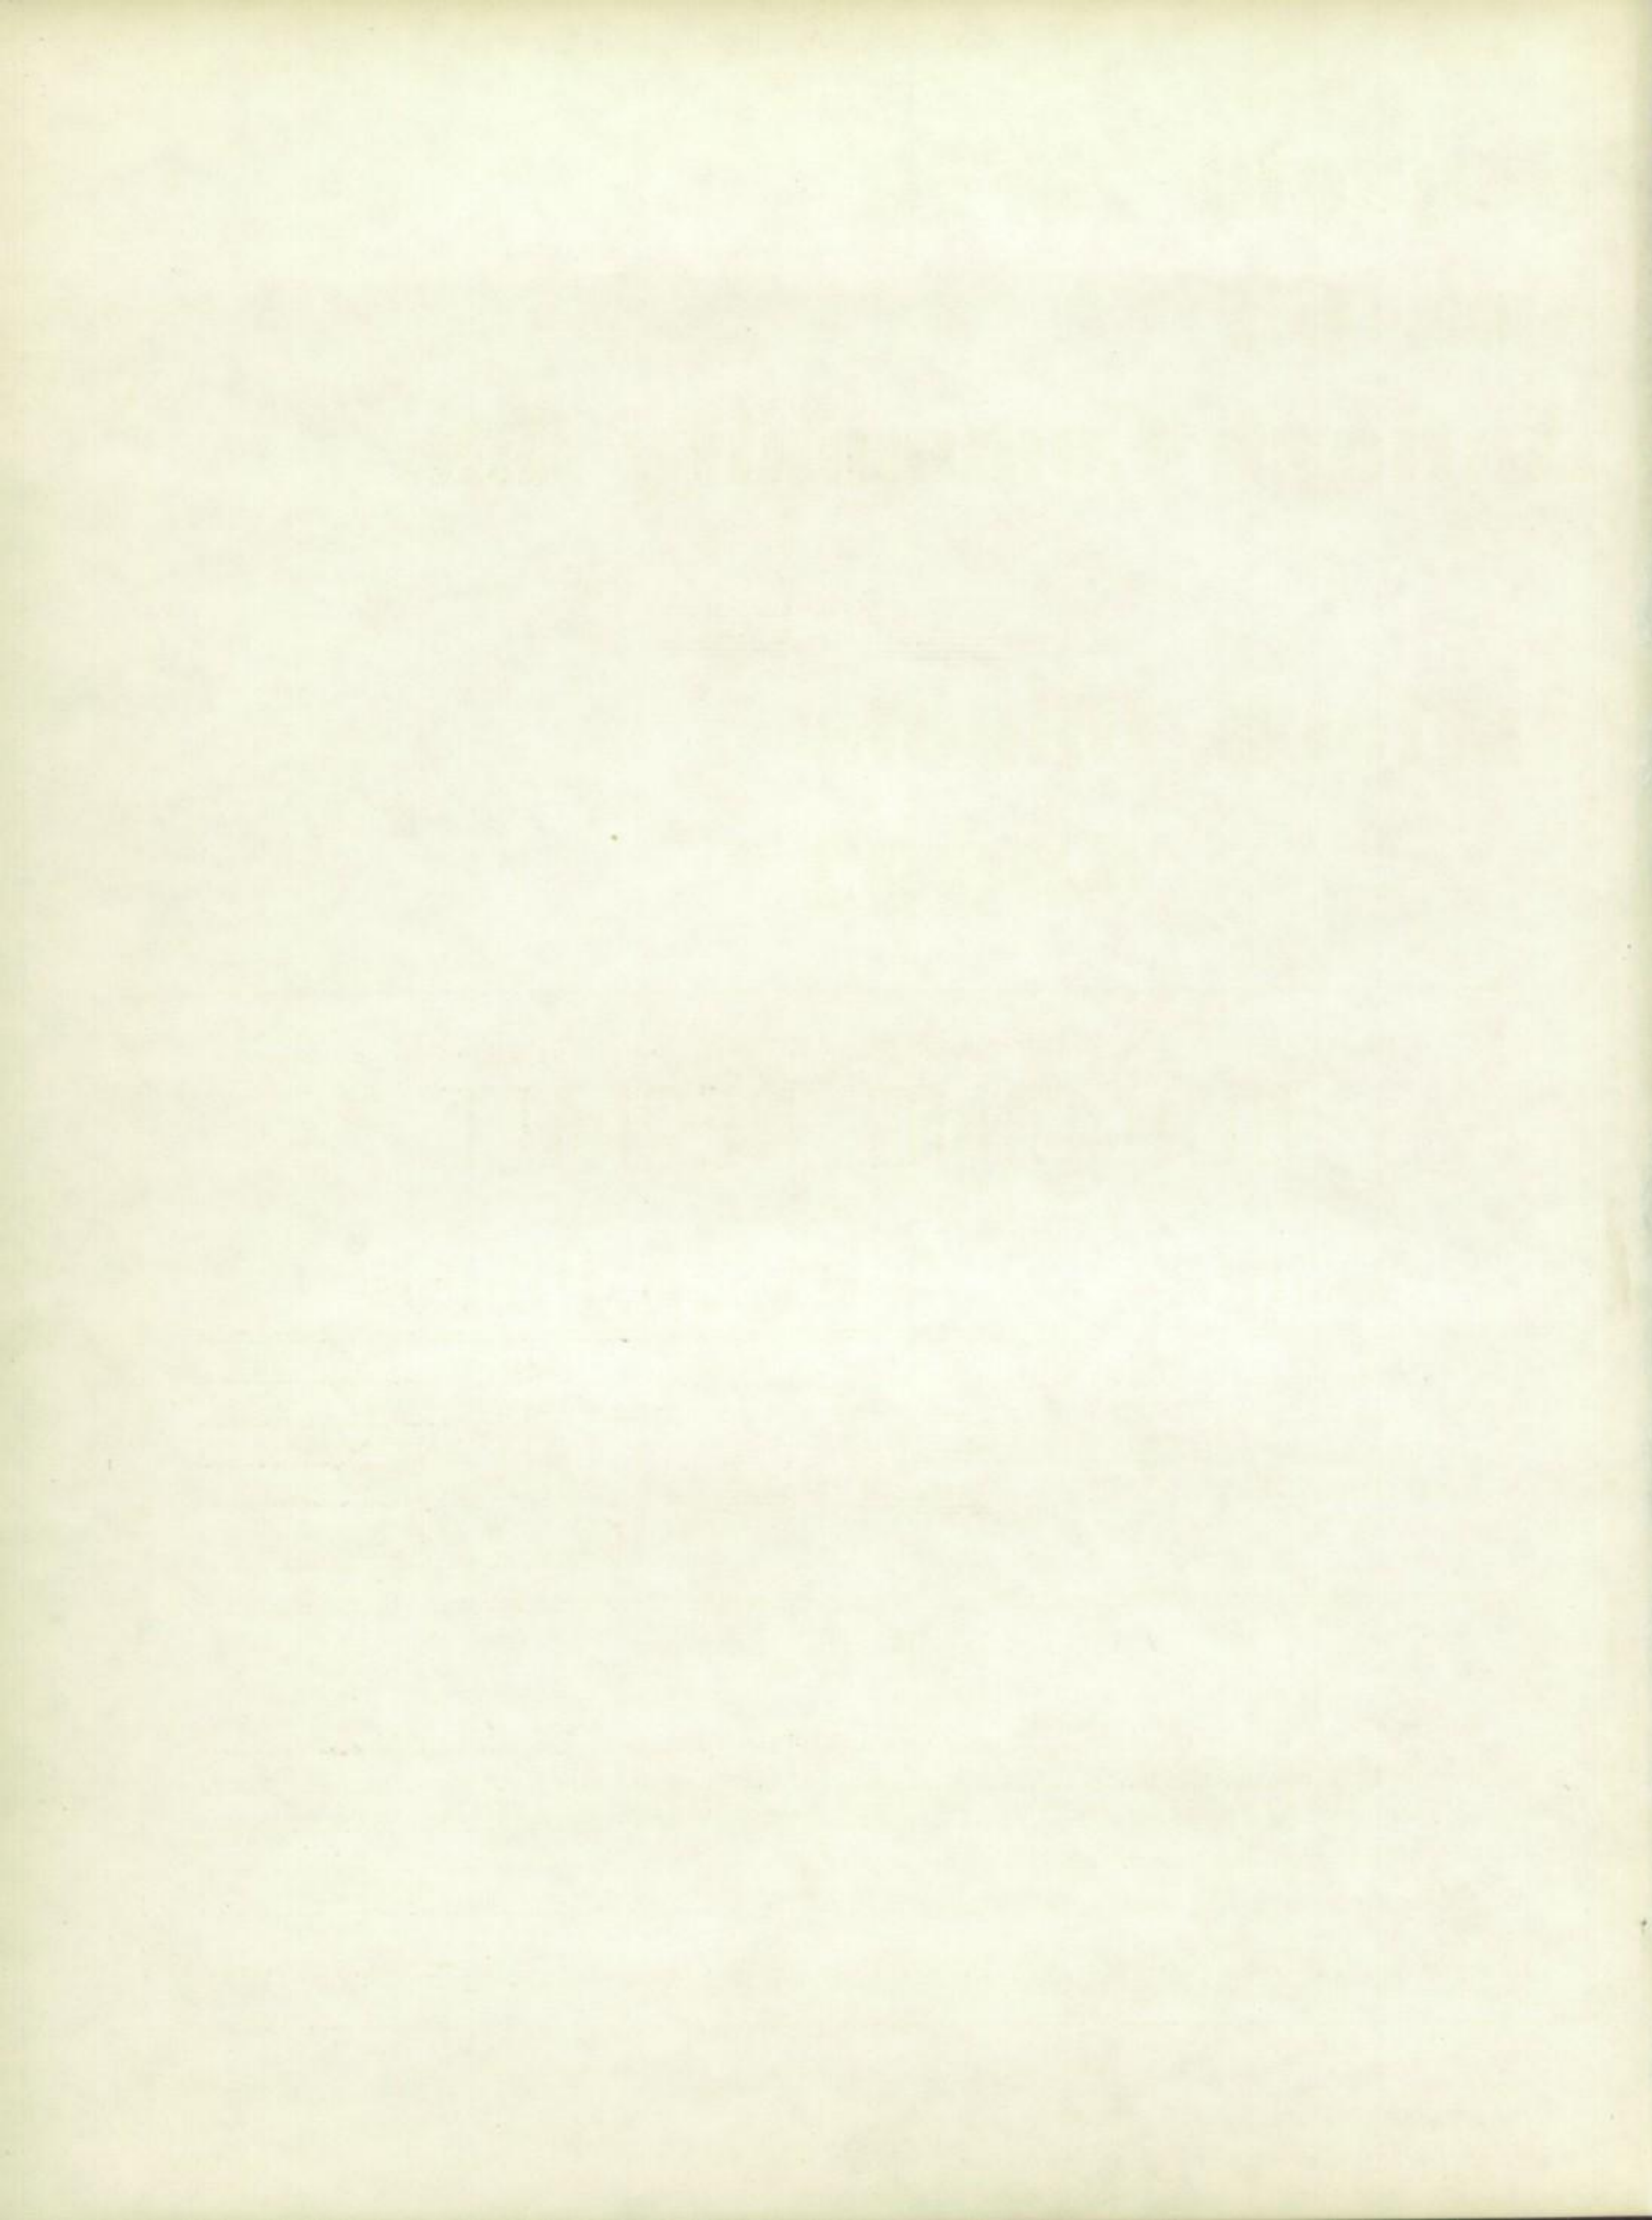

The artwork is an abstract composition on a light beige background. It features several large, textured spheres in shades of grey and brown, some of which are connected by thin, dark, organic lines. Scattered throughout the page are numerous small, dark dots of varying sizes. In the upper right, there are stylized, dark, angular shapes that resemble leaves or petals. In the lower left, there are more complex, dark, organic forms that look like stylized figures or masks. The overall style is reminiscent of mid-20th-century abstract art.

Behind bleached features of salt and stone
Lie once vulnerable spheres that have hardened with time;
When broken, there flows from them
A syncopated evolution of ideas
Born in a river of dreams and fantasies;

Now we grow towards the sun
Striving for the eternal content that was promised long ago
Sometimes forgetting the ground;
But when moments of decision are upon us,
The roots of our subconsciousness grip this foundation
Rejecting the ideals as an impressionable war seed.

ACHS Sees Mind, Body, & Character Develop

Physical appearances of a building can be changed just as weight lifting might change the physique appearance of an athlete's body; or just as an exceptionally high grade might change the expression on a conscientious student's face. These physical changes merely reflect what is happening on the surface, however. For that an athlete to realize his changed physique, he had to master self discipline. And for that student to receive his good grade, he had to acquire a deeper understanding of the subject. Each of these students has received reinforcement to achieve higher goals now.

The building that went on throughout the year, even tho it sometimes inconvenienced us, resulted in more than just greater space. The greater the physical capacity of the building, the greater the capacity for Antioch to be a safe and modernized school.

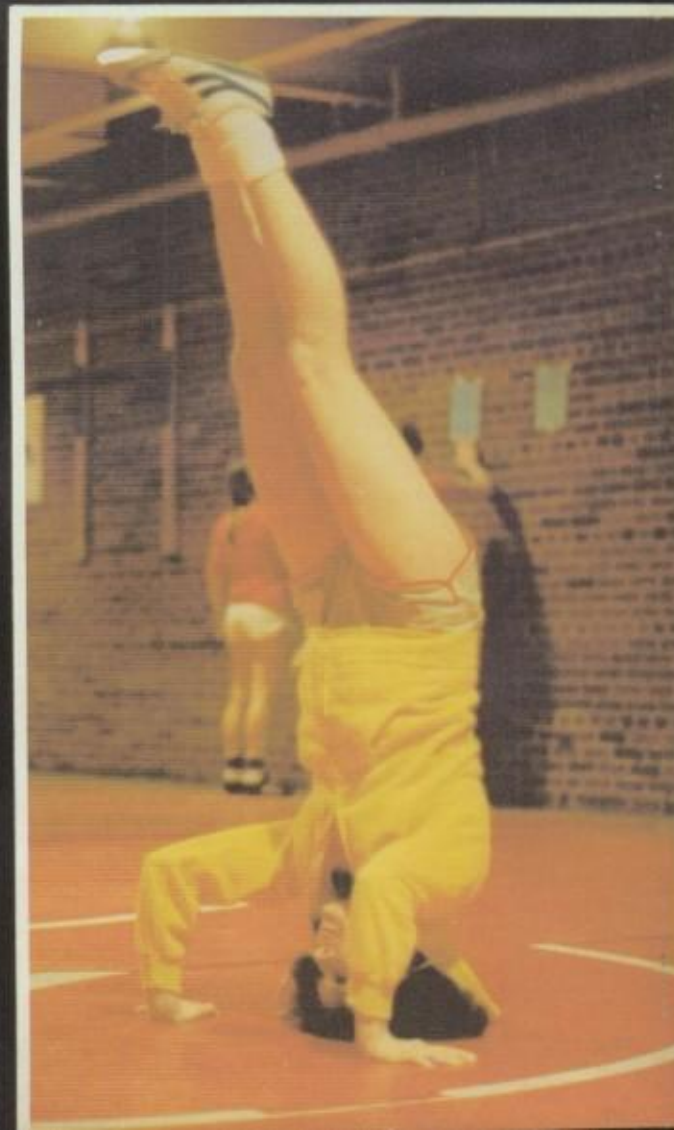

At a football game some spirited fans show the sportmanship and enthusiasm that was characteristic throughout the year at athletic events.

With smiles like these Donna Straka and Kristi Pratt, lab partners, must be pretty certain of their answer.

In the annex Tammy Carruba demonstrates a head stand as an example of balance control.

During a free period, Greg Stevens and Dan Behne prove to use their time wisely.

Oranges and milk are a typical item at lunch for students like Bob Nefferman and Tony Cisto who are concerned about eating habits.

Senior Jamie Vasek helps to reconstruct the era of the 50's by participating during Spirit Week

Looking confident, some of the Varsity Sequoits line up prior to the game on kick off day.

Grant Kmiecek and David Syria match wits in a chess game.

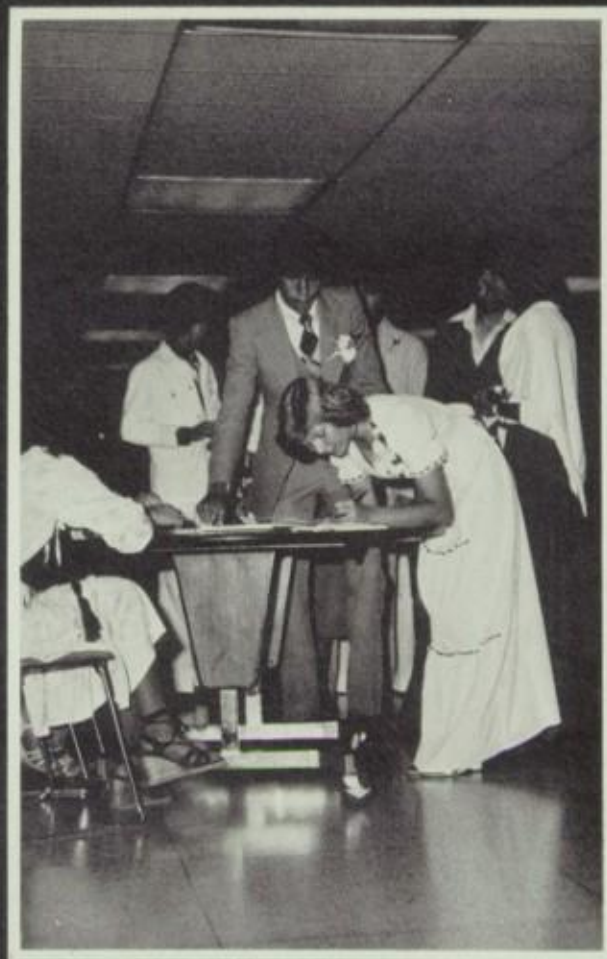

Diligent Freshmen aim for first place.

Toga! Toga! Toga!

Marching Sequoits spread their spirit in the town of Antioch.

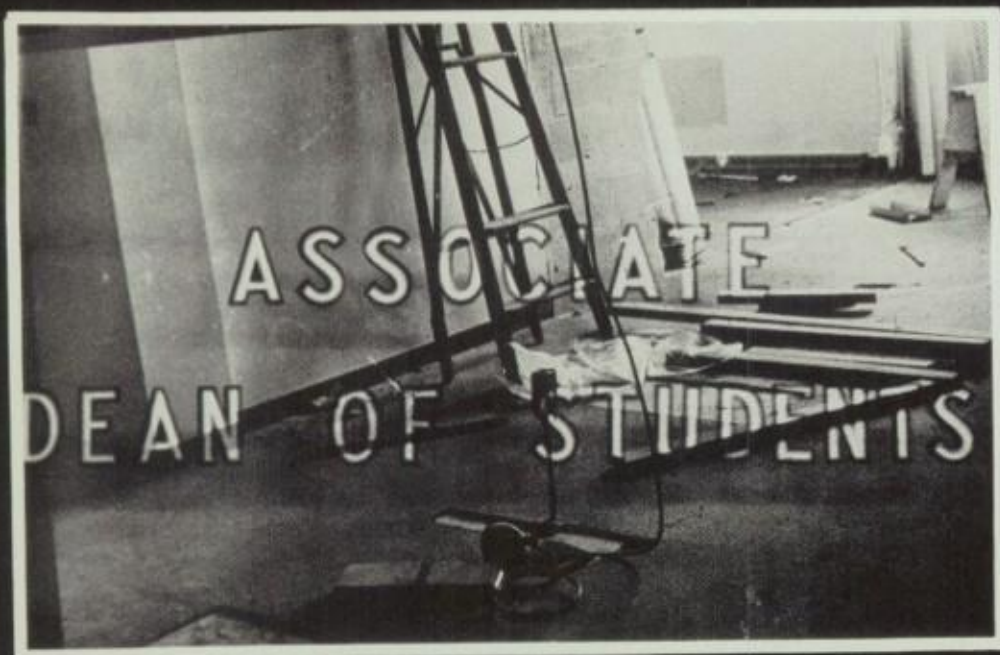

Jenny Bowman signs guest list at '78 Homecoming.

Pom Pon girls, Laura Dubek, Sandy Jones, and Donna Hall await their cue to perform.

Antioch Students Build Character

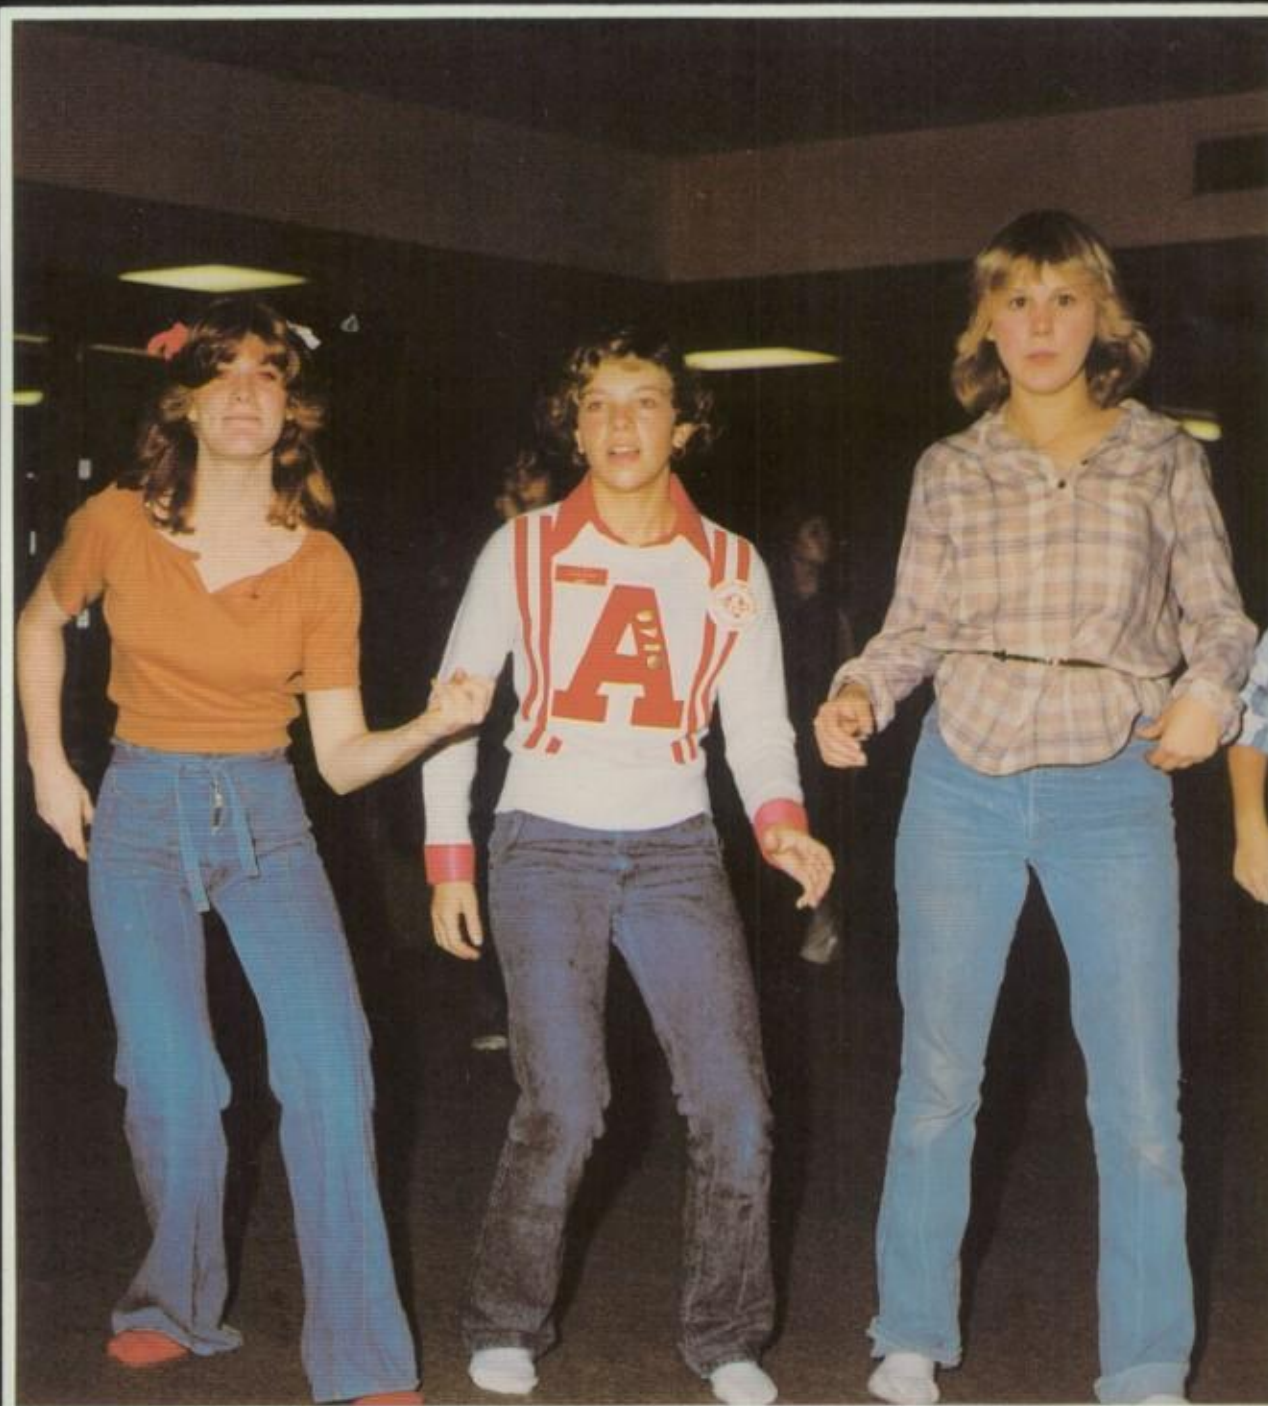

Two of the three deans received new homes.

Adam Venn and Kirsten Laurin contribute to the sound of laughter heard in Antioch.

Jackie Miller stops by her locker between hours.

Liane Dalton, Jennifer Czapiewski, and Beth Kromer get into the beat of the music.

Lehn, Dave Gutowski, and Roger Korjenek, sharpen their wits on a game of cards during their hour.

Anne Dvorak gets bombed by Laura Pocrnich.

Sue Dyer and Ann Humphrey raise a toast to Miss Pederson.

Students are one group you rarely hear complaining about the snow.

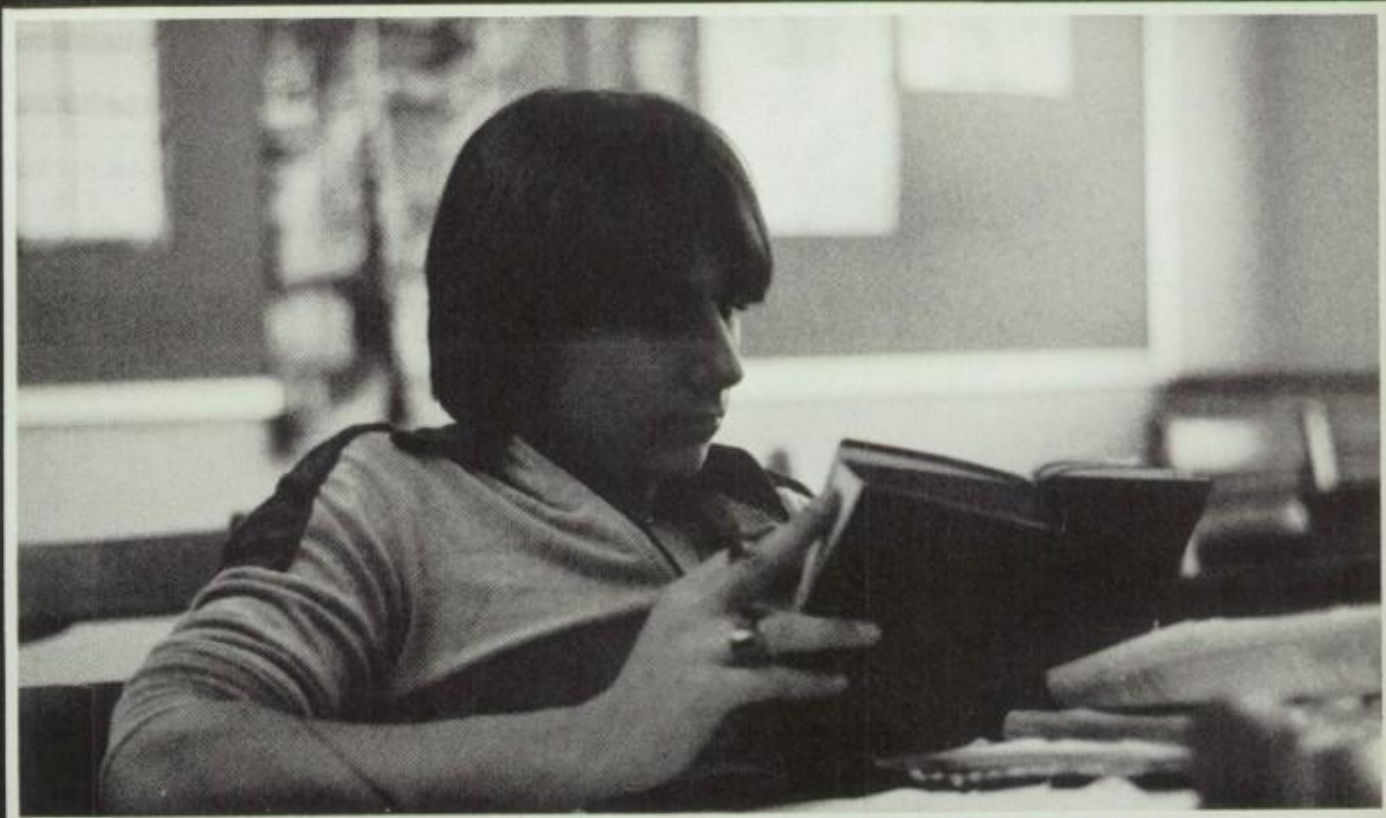

School Inspires Learning

Many students were temporarily inconvenienced by hammering and drilling outside their classrooms.

After exploring the creative aspects of pottery, Mary Echeandia washes up.

To help the librarian, Wendy Barth files magazines.

As a means to earn additional credit and valuable experience, Carol Duha works as Mrs. Waible's aide.

Athletics Enhance Attitudes

The construction in the south gym effected the girls' fall sports schedule.

Running cross country, Kurt Messner strives for the finish line.

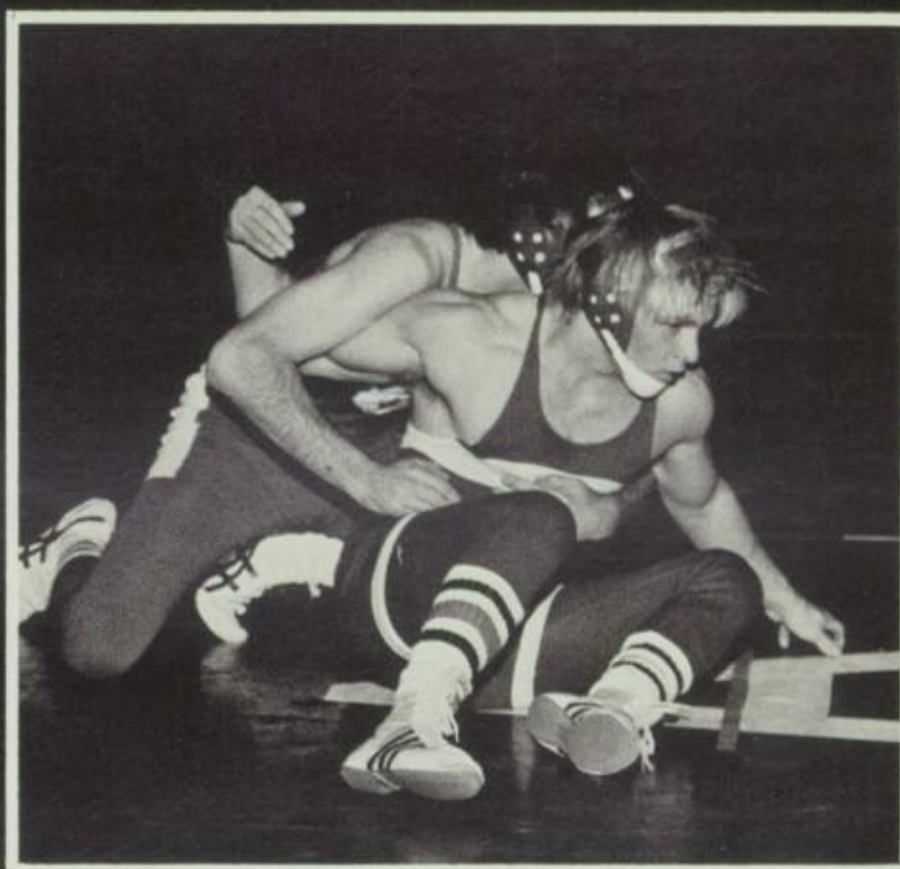

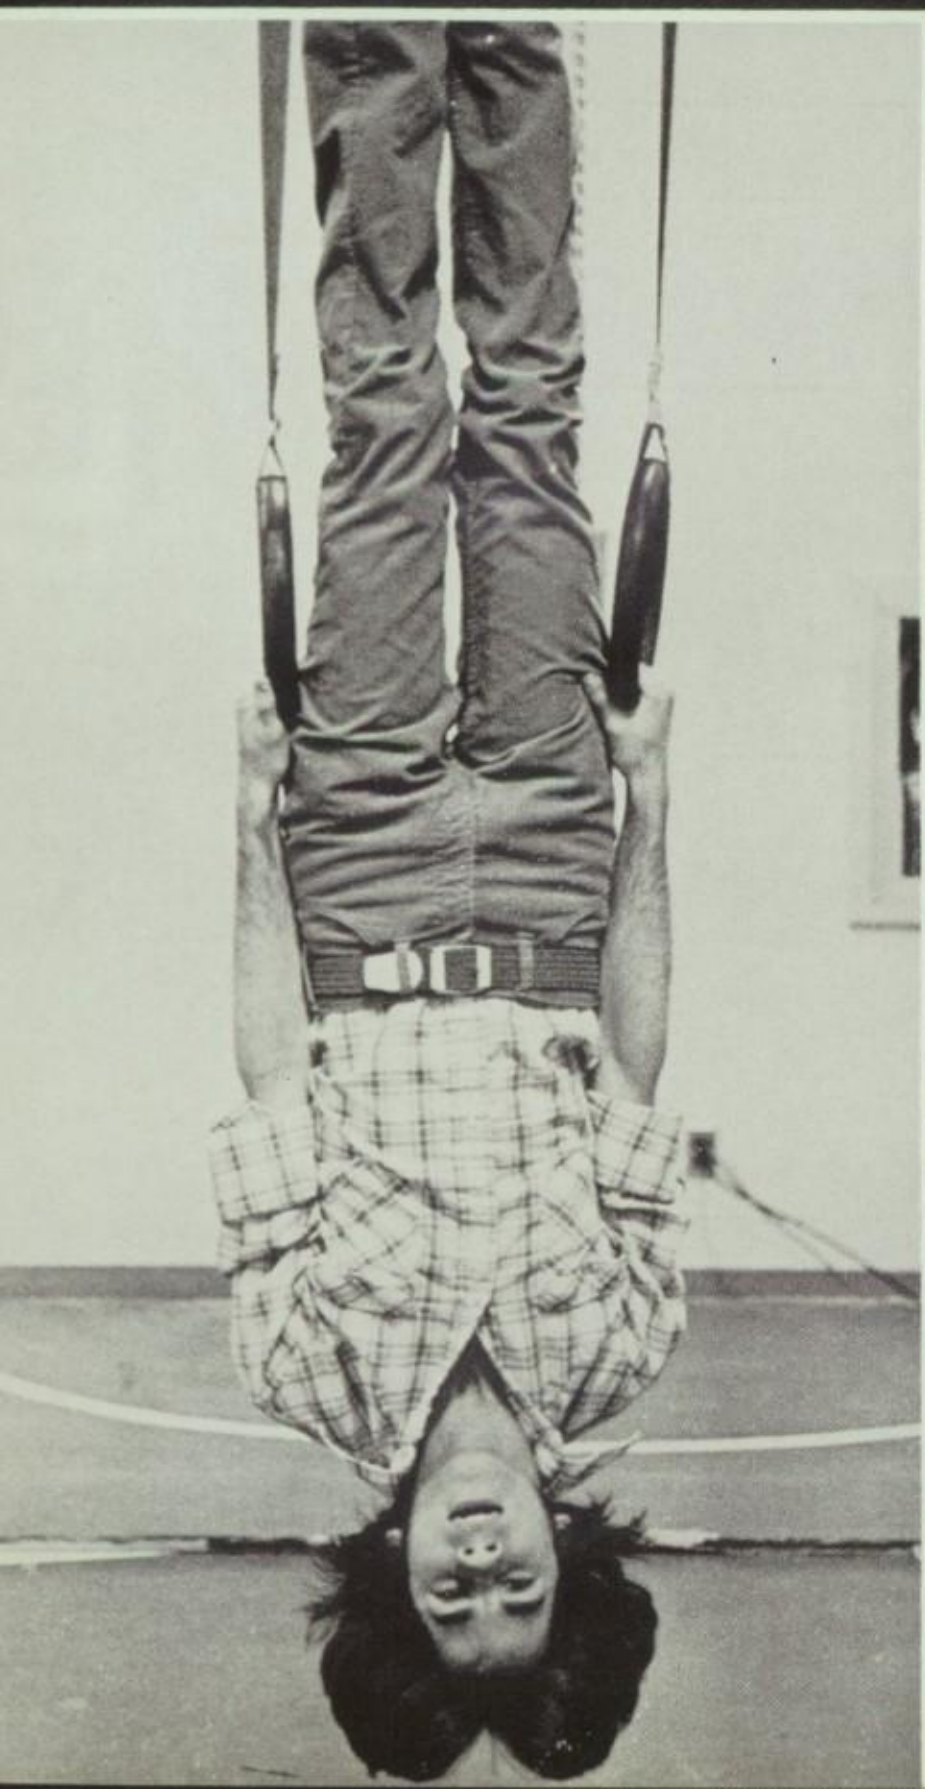

Completing his shot, David Behne looks on with high hopes.

Bowling for Antioch, Debbie Siems delivers the ball.

With her eye on the ball Tracy Witt warms up for the meet.

On the mats "Woody," Kirk Sarmont, plots his escape.

Showing his determination, senior Chris Oddsen dives for the pigskin.

(Left) Phil York views the benefits of exercise from a different perspective.

Building Codes Require New Improvements

The Yearbook Staff, after much brainstorming, felt that the construction going on in the school throughout the year was symbolic: ACHS doesn't build only walls; it builds mind, body, and character.

The air conditioners were put in with the help of a helicopter.

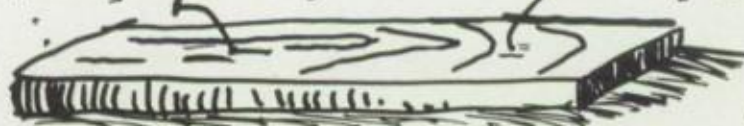

The addition included more classrooms also.

What I DISLIKE About A.C.H.S...

I don't like the fact that it takes 10 minutes to get to class when traffic is good, and we're only given 5.

"Turtle"

It's pretty poor when you have to get a pass to get just a drink of water.

"Thirsty"

I dislike the fact that they do not let us get rowdie during spirit week.

"Rowdie"

I dislike the negative attitude people have towards school.

FUNNIEST MOMENT...

The funniest thing that happened to me was in foods class. I was blowing a bubble and my gum fell out of my mouth into my partners chocolate cake.

I was innocently sitting in the cafeteria 4th hour one day. I looked up and saw a U.F.P. (unidentified flying pizzaburger) whizz by. October 20, 1978.

The funniest thing that happened to me was when I was late to one of my classes. I ran into the room and flew into my chair in hopes of not to be noticed by the teacher. To my surprize the chair was broken, and it folded to the floor. Needless to say, I was noticed.

The funniest moment for me was the time I was buring my pen in science class with a lighter. However, not so funny was that I got caught.

What I LIKE About A.C.H.S.

There are so many opportunities in this school-so many different sports, clubs, and classes. You have to be a total dead beat not to get involved.

"Active."

I like the teacher participation in our school. You can always complain about teachers, but they really do participate in the school activities. For example, on "No Class Day" during spirit week, many teachers dressed up better than the students! Cut them down all you want, but they really do want to get involved.

"Grateful"

The thing I like most about this school is that the teachers always try to have time to help individual students.

"Needy"

I like the commons better than anything else at ACHS since freshman are in there so much.

MOST EMBARRASSING MOMENT...

The most embarrassing thing that has happened to me in highschool was the time I dropped my pencil in class. When I bent over to pick it up, my desk fell over on top of me.

Leadfingers

My most embarrassing moment in high school was when I was in gym class, and a girl pulled my gym shorts down!

Droopy Draws

Buying a elevator pass my first day at Antioch was slightly embarrassing for me-especially since at that time there was no elevator.

Such-A-Fool

In my first year out for a fall sport, I was named flasher of the year. This was because one day while removing my sweats I also removed my shorts. I finally realized it when I felt a slight draft.

(11/19/61-3/14/79)

Brian E. Beal
(8/10/62-3/14/79)

In one sense there is no death. The life of a soul on earth lasts beyond his departure. You will always feel that life touching yours, that voice speaking to you, that spirit looking out of other eyes, talking to you in the familiar things he touched, worked with, loved as familiar friends. He lives on in your life and in the lives of all others who knew him.

Social Science Offers Wide Range Of Study

There were nine electives open to students this year in social studies. The semester courses ranged from geography to psychology. Two other courses, U.S. History and Amer. Gov't Consumer Ed. were required for juniors and seniors respectively.

The teachers' 50's dress is quite authentic looking.

Many Students Benefit From Sedol

This year an increased number of students' academic problems were identified and dealt with because of the efforts of the Special Education district of Lake County. Approximately seventy students benefitted because of the program.

Marching Sequoits Strive for Perfection

In its second year, the marching band has improved its average score in competition twelve points. From there the Sequoits can only improve. On the trips to Eastern Illinois and Northern Illinois Universities the band placed an overall fourth. This year the marching Sequoits consisted of eighty-two instruments, sixteen flag girls, and another eight rifle girls, all lead by two drum majors.

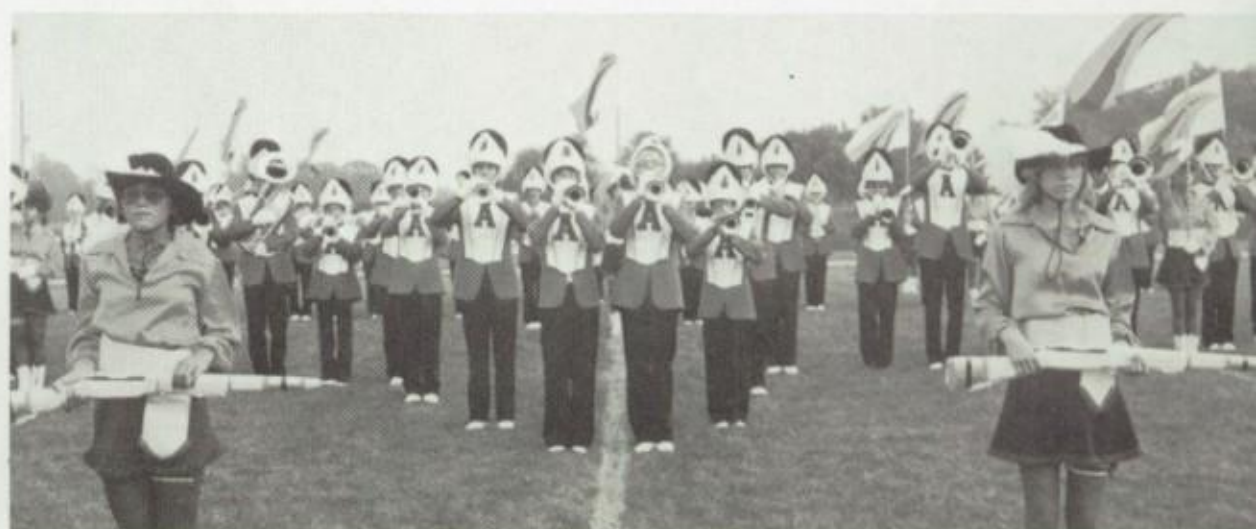

Guard Barrie Kovach stands at attention.

Sylvester Stallone Selects Sequoia Queen

This year the Sequoia Staff chose **Sylvester Stallone** to select the Sequoia Queen. We felt his portrayal of "Rocky" reflects the building of a supposed dream, and in the process building that dream he built body and character. Perhaps his rise to a champion is what we all are capable of accomplishing.

Mr. Stallone was more than happy to participate in the judging. He used the information below and the portraits of the girls as his criteria."

Traditional Spirit Week Changes

There were major changes in homecoming and spirit week this year. Because in past years some students took decorating the school as a license to vandalize, the decorating this year was cancelled by the administration. Student Council tackled the job of creating a new spirit week.

This year Monday was Guy's Hush Day and Tuesday was Girl's Hush Day. The guy and girl with the most buttons were named Mr. Irresistible and Miss Sex Appeal. Wednesday was "No Class Day" for which students dressed with as little taste as possible, although many seniors donned togas as in the movie *Animal House*. The titles "Teen Angel" and "Miss Betty Lou" were awarded to the students with the most appropriate fifties dress on Thursday. Friday each class displayed its spirit by portraying the theme assigned to it. Seniors dressed as senior citizens, juniors as jocks, sophomores as Sequoits, and freshmen as infants.

Many students felt the desire to bring back some of the old homecoming traditions, some of which included teepeeing and pumpkin smashing. Also, throughout the week shouts of "food fight", and "toga, toga, toga" were heard through the halls.

Homecoming '79 Is A Blazing Success

At the pep rally Pam Schroder steps high to the sounds of "Heartless."

Antioch fans could not have asked for a more perfect day: beautiful weather, much enthusiasm, and a Sequoit victory. In mid afternoon, the varsity game started in front of a good sized, spirited crowd. Antioch's defensive line accomplished as much as the running backs' gains. When it was over, the varsity Sequoits had won their first homecoming game in fourteen years, 37-6. To celebrate all three teams' victories, the fans charged onto the field to raise the coaches and players. Again, chants of "Toga, Toga" dominated the post game cheers. The winning fervor rose so high the coaches ended up in the shower.

Ready! Set! Hike!

Finally, the class of '79 wins float competition.

Great Scot! Janet qualifies for state

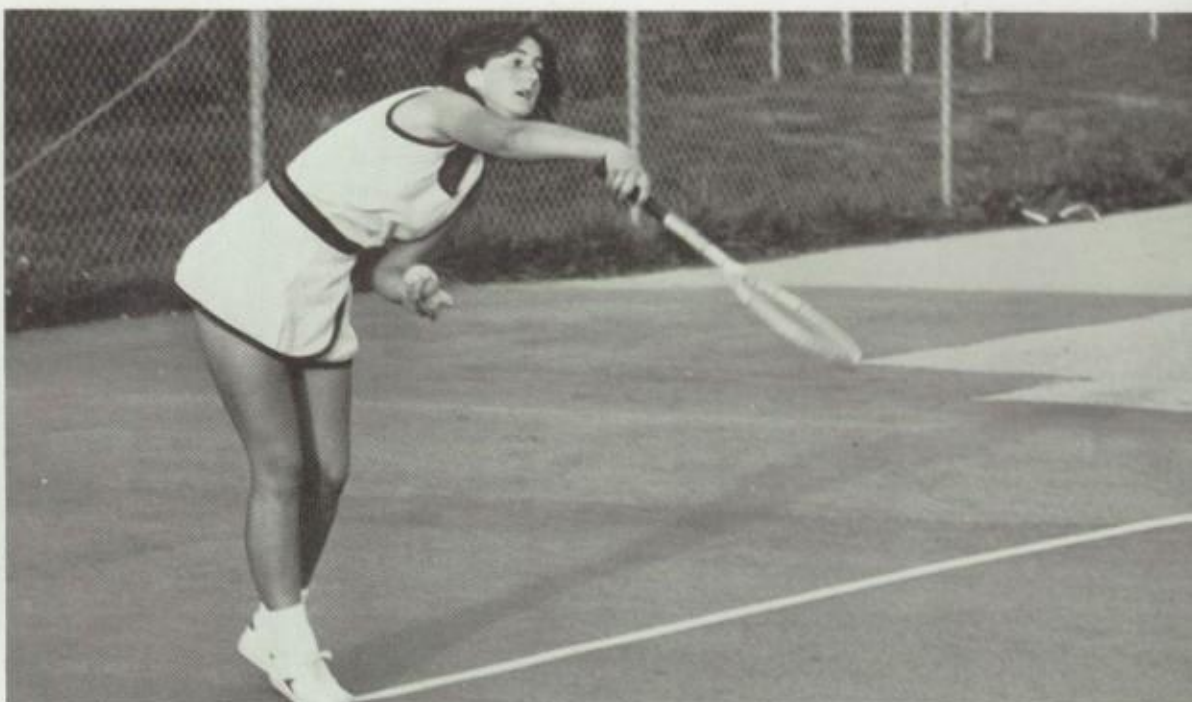

This year Antioch High School's Rotary Club exchange student was Janet McMurray from Scotland. To come to the U.S. Janet had to fill out many applications and go through various interviews. Janet narrowed her preference to the central states area because she was fond of its seasonal climate. She spent a total of 12 months in Antioch, four months with three different host families.

Janet finished school at home in Kilmacolm High School. When asked how her school there compared to Antioch, she said there were several differences: Her high school was much smaller, had stricter discipline, and offered a very limited number of subjects. She feels she really benefitted from being exposed to both.

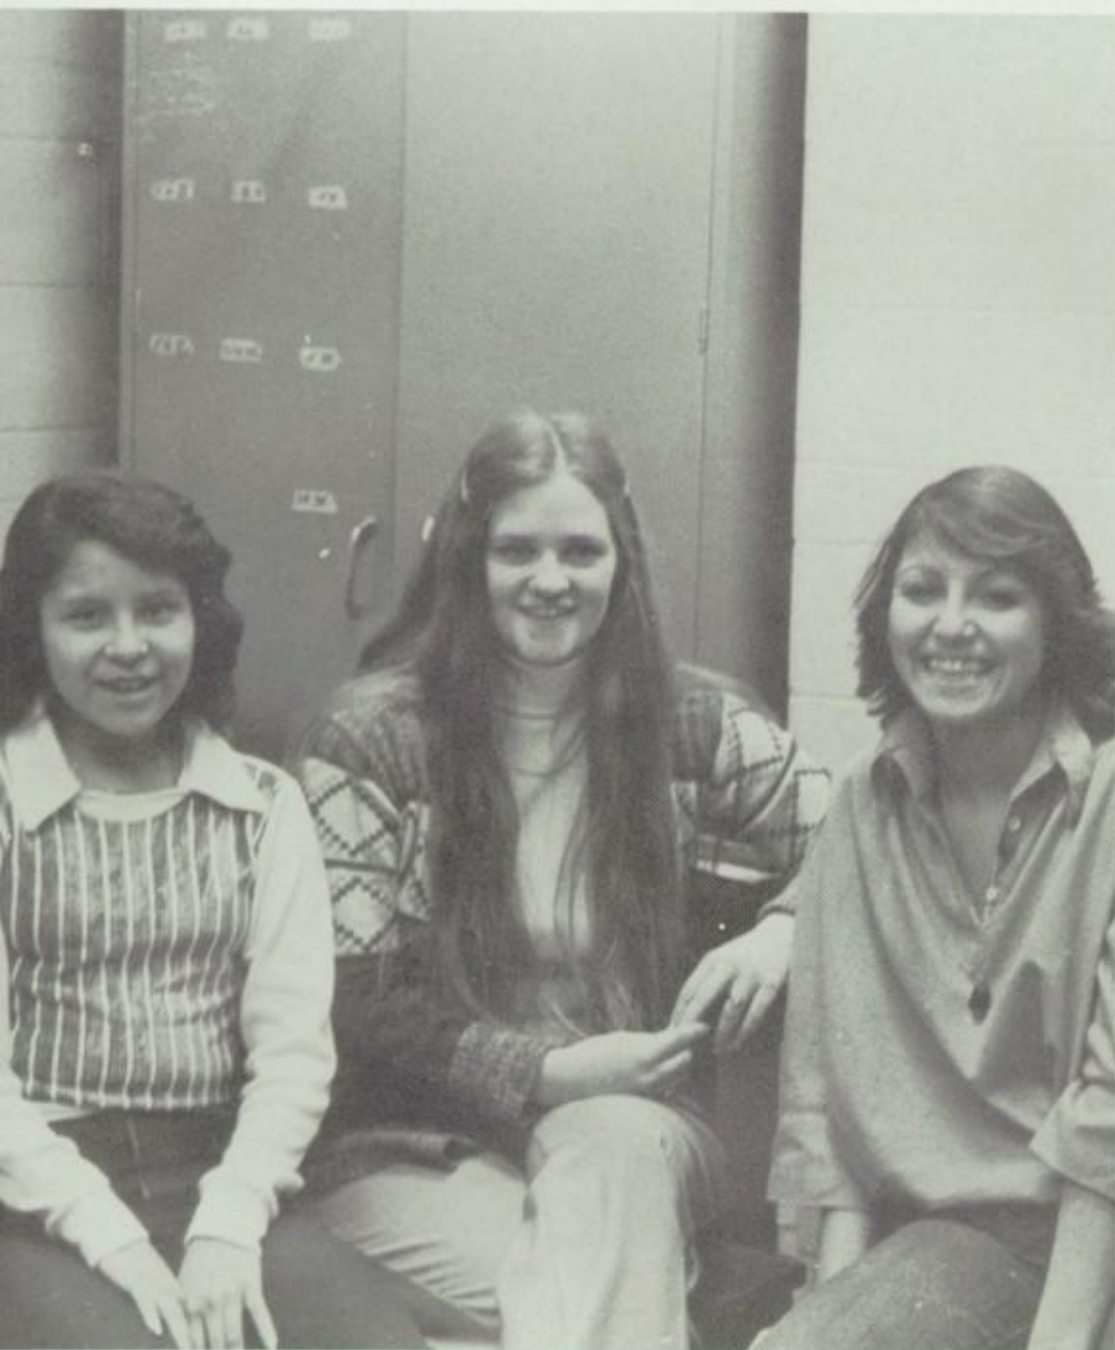

Janet has certainly not sat idle. While she was here she enjoyed many sports such as tennis, lacrosse, hockey, badminton, netball, and waterskiing. She concentrated on tennis and her efforts paid off; Janet was only the second Antioch tennis player to qualify for the state tournament.

Janet feels she had to be her best at all time here because people will judge her country by her. She represented her country well. If you're ever in Scotland

Spanish Students Enjoy a Different Life Style

The two Spanish foreign exchange students, Ana María Bellido and Evelyn Navarro, came to ACHS through the American Youth Exchange Program. After they received their physicals and passports, they were flown from their homes to Miami, Florida and from Miami they were sent to here. The American Youth Exchange Program tries to match the exchange student with a student very much like them. This makes the stay away from home a lot easier on the students.

Evelyn Navarro, from Chile, is eighteen years old and has one older sister. She stayed with Antioch student Beth Mueller and decided that she liked it here very much. Evelyn came to the U.S. because she is studying to be a Spanish-English interpreter. She said her English improved greatly, but she didn't think her ten week stay here was long enough to absorb all the information she wanted to learn.

Ana María Bellido is from Peru. Ana is fifteen has two brothers and two sisters. She stayed with sophomore Maureen Hansen. In addition to her study of the language, Ana enjoys dancing, swimming and gymnastics. She really likes the English language and came to the U.S. to learn not only the language, but the differences in life style and people also.

Ana María Bellido of Peru is fifteen and a junior at her school.

Christmas at Antioch

During the Christmas season students and faculty participated in many holiday events. The main event of the season at A.C.H.S. was the annual X-Mas assembly. Sue Girtten served as emcee and the holiday music was provided by the new "Faculty Orchestra." For the climax of the assembly and the Tom Tom Shave-a-Thon, Mr. Dresser was stripped of seven year old mustache. Student Council, the same day, raised over \$300. for needy Antioch families. Then school adjourned for the Christmas holiday, and the students received their long awaited vacation.

After Hours at Antioch

It doesn't all happen in the 5-7 hours in the class rooms each day. Parties, hobbies, sports and jobs were a part of students extracurricular activities.

Among the most popular places students hung out the year were Wilmont, MacDonalds, the Vault, Tuffles, Baskin & Robbins, and the Teen Disco.

The continually crowded Antioch MacDonalds only confirms the belief of many that the Big Mac and Quarter Pounder are basic constituents of a high school diet. Beyond the food aspect, the Golden Arches also provide a job market for many Antioch students and a hangout or meeting place after school and games. To compete with Macs and the other old standbys (the Vault and Tuffles) for food were the new Baskin & Robbins and M & M Sub Shop.

For entertainment other than the most popular pass time, eating, students gathered at spots like Wilmont. To amuse themselves during the Blizzard of '79 many students found there way to the Wilmont ski-hills. Another popular hangout was the Antioch Bowl's Teen Disco. Students that didn't dance, often went there to play pool or bowl.

In response to a survey, ACHS students agreed additional recreational spots were needed. To mention a few places Antioch students suggested ideas such as these: YMCA, a Roller Rink, popular concerts, bigger ski-hills, health food restaurants, more tennis courts, and a pizza spot similiar to the Silo.

Inspite of the intense cold and snow, Rich Swieca has the taste for the ice-cream at Baskin & Robbins.

CLUBS & ORGANIZATIONS

Bill GERS

A-Club Changes Tradition

A landmark was established this year in A-Club. The club accepted the first female members. The girls were apparently more interested this year than others and applied.

This year in an attempt to build up its membership, "We went out and got our members instead of letting them come to us" said Mr. Hahn. These efforts paid off because with the profits from selling football programs and letter jackets, the club bought a whirlpool, a pitching machine, and a tennis machine. A-Club has always played an active part in the A.C.H.S. athletic program, and this year was no different.

Art Club Displays Its Talent In Parade

The Art Club float was characteristically a 1st place winner in Antioch's homecoming parade. The float was only one example of the artistic work done by the members of the club. The Art Club's purpose is to introduce or further develop people's interest in art. They achieved this goal this year by producing things such as their homecoming float and numerous individual efforts at art fairs.

A.V. Gets New Home

Audio Visual was moved to a new room this year. Because the media center is now more centrally located, the inconvenience of all the building this fall and the make shift arrangements were worth it, according to the monitors.

The activities of the ten members this year ranged from delivering the equipment to the teachers and operating it, to learning dark room techniques. The monitors devoted a tremendous amount of time because they felt that the experience they gained from learning about equipment, computers, and developing is invaluable.

All of the Antioch bands, as usual, were involved in many activities this year. At each home basketball game members of the Pep Band entertained the crowds. Also, every band member at ACHS took part in the Bandorama with the upper and lower grade schools. This year and the past few years, the Music Department has put on the Variety Show featuring their Jazz Ensemble.

The Marching Band, in addition to its performance at football games, entered into competition several times this year. The rifles and flags crowned the highest honors by earning 92 and 98 points out of one hundred respectively. If practicing and performing does not keep them all busy enough, they raised money for summer camp fees by selling candles.

The ACHS Concert, Freshmen, and Acappella choirs kept themselves busy this year. All the choirs participated in the Christmas and spring concerts. They also took part in money making projects.

The choir made singing appearances at the Lakehurst Shopping Mall, local churches, and at area grade schools. The singers also performed in the annual Choral Festival which consisted of voices from schools all over the conference.

The sixteen Madrigals members labored at length this year too. They met every Wednesday night for their rehearsal and participated with the other choirs in all of their performances. On their own they sang at the town's Christmas tree lighting ceremony, appeared in the Variety Show, and did some unexpected caroling.

"Colorguard, March!"

1978-79 marks the first year Antioch colorguard was open to freshman. Freshman were quite receptive to this change considering the number who signed up to audition. All students who wish to be in colorguard, however, must show poise and marching form to a large number of faculty and select students at the tryouts.

This year, colorguard met a minimum of five hours a week to plan new routines and practice their steps to present the American flag at events such as football games and basketball games. The girls also had new uniforms made with the profits from their money making endeavors.

DECA Competes For State Offices

DECA is a nation wide club that junior and senior high school students can join to prepare themselves for a job in retailing. The Antioch club is very involved in DECA and this year participated in competition for state offices. Julie Wrede, Heidi

Niemann, Paulette Kruehlach, and Tina Dorich won titles as ambassadors. Tina Dorich also went to the finals for president of the Illinois Distributive Education Clubs of America.

Members of DECA gain much from their organization. They receive excellent classroom help, and they get on the job experience to prepare them for a career in retailing with the aid of the many Antioch merchants who supply the jobs. DECA is unlike other organizations in that the students receive credit and get paid in addition.

Develop Public Speaking In Forensics.

The desire to polish their public speaking coupled with a certain amount of talent to begin with is what attracts ACHS students to the Forensics Club. This year the members competed in several categories: theater reading, extemporaneous speaking, dramatic duet acting, verse radio speaking, and original comedy, to name a few.

The various combinations of members traveled to many suburban high schools to compete in tournaments including district competition. They came very close to returning with a trophy; but perhaps after a few more seasons, they will have perfected their talent.

German Club Gets New Start

Under the new direction of Mr. Harry Siebel, the German Club members had the opportunity to explore the German culture and language through various trips. In order to become a member, one must be enrolled in a German class or have had at least one year of German. The club met two to three times a month to discuss its activities and fund-raising programs. The

money raised by the members was used for a sledding party, a trip to a German restaurant and pastry shop, and a bus trip to the Milwaukee International Folk Fair. Also, through fund-raising projects, the members made plans to award a scholarship to a student studying German.

O.E. Provides Experience

Office Education prepares a person for future office work. Building skills, knowledge, attitude, and experience are issues in the O.E. program. In order to be a member of O.E., one must hold an office job and be enrolled in office related courses. Club meetings were held every Wednesday before school to plan

delegate meetings, leadership conferences, the annual banquet, and to prepare for several contests. Some of the contest categories included typing, shorthand, and accounting skills. O.E. is designed to provide experience that can not be learned in a classroom.

Selected Students Aid In Office

Office Monitors this year were selected from honor students to help out in the Student Activities Office. During their free hour, when they would otherwise be in study hall, students assisted the office in many ways. Locating students, filing, and running errands were just a few of the ways the monitors aided the deans in making the office run more efficiently.

Freshmen Change Their Views Of Peer Group

This year, unlike past years, freshmen liked Peer Group as a change from study hall. This was the first year that Peer Group was a required course for all freshmen. Many hundreds of freshmen have participated in the self-awareness sessions.

To counsel and lead these sessions, there were 26 seniors, juniors, and sophomores. These leaders were selected by their peers and through teacher screening. Many leaders helped the incoming freshmen adjust.

Pom-Pons Place First In Competition

The Antioch Pom-Pons girls traveled to the University of Wisconsin at Whitewater and made their journey worthwhile.

They placed first in competition out of seventeen schools. The girls must have the ability to learn new routines quickly and the willingness to work hard. They met nearly everyday of the week after school and before all home football and basketball games to practice. This year's squad also organized fund raising activities such as bake sales and concessions to help pay for part of their uniforms.

Sequoia Staff Assembles Book

Throughout the summer months, the Sequoia staff held evening sessions for new members to introduce the basic knowledge needed in producing the yearbook. Also, during

the summer and fall, members attended many workshops where layout, photography, and design were discussed.

Yearbook students spent a tremendous of time planning and carrying out a theme that was appropriate for this year. There seemed to be some analogy between the construction on the school and the building of students minds. After the main brain storm sessions and section deadlines took their toll, the Sequoia '78-'79 materialized.

More Than Speaking Spanish

Spanish Club is more than just learning the language. For example, the students studied Spanish culture, went to a Spanish restaurant where they had to order in Spanish, had parties the way Spanish people do, and took part in Homecoming Parade, to name a few.

Beyond the fun is their intellectual concern. The thirty-eight member club organized fund-raising programs to earn money for Spanish scholarships which are awarded to club members each year.

Studio Theatre Builds Future

Studio Theatre is a special class at Antioch taught by Mr. Ken Smouse. The fifteen members must have theater experience or go through an audition for admission to the class. In addition, the students in the program must have a good grade point

average and be very interested in drama.

The students study under production-like conditions. They work hard and it pays off when they put on a good play, both for future achievements and for academic credit. This opportunity and hard work pays off in a third way too. In the past four years, seven students who were in Studio Theatre are now majoring in drama in college. Five of these students are now attempting careers in theater and one is now performing.

Student Council Modifies Homecoming Traditions

Working with the new rules for Homecoming set by the administration, Student Council members made their best effort to accomodate the desires of the student body. These efforts were in line with Student Council objectives. The purpose of the 63 member Student Council is to make this school a better place for the other 1738 students. Some of their projects this

year included printing the Student Directory, ushering at Back to School Night, organizing Homecoming, helping at Freshman Orientation, sponsoring after game dances and many other activities. Some members also get involved with Student Council on another level by attending the N.E.D. and State Conventions.

Executive Boards Help Plan Student Activities

In addition to Student Council, executive boards from each of the four classes play a big part in planning student activities. For example, the junior class is responsible for the prom, which is the most difficult task to undertake. All four executive boards

also help with organization of class floats, after game dances, carnation sales, and many other things. To be elected to Executive Board a student has to get a petition signed by ten students and have it reviewed by the class officers.

Ski Club Takes To The Slopes

This year's Antioch Ski Club, the Mountain Maniacs, is going into its second season and the interest in the club is even greater than last year. The club consists of people interested in learning skiing techniques and information about the equipment. The members evaluated each other while skiing which made the club a good opportunity for beginners as well as advanced freestylers.

Mr. Curtis, the advisor, enjoys skiing as much as the members and helped to arrange trips to Wilmont, the Playboy Club, Majestic Hills, and Alpine Valley. He also arranged a weekend trip.

Tom-Tom Wins Press Award

The Tom-Tom, ACHS's monthly newspaper, won an award this year from the Kettle Moraine Press Association for advertising design and layout. The award was presented for creativity in advertising artwork.

Many of the 23 members attended a summer newspaper workshop at Wisconsin University Whitewater. Besides the daily

class meeting, the staff met once a month on Sundays for an all day layout session.

In order to produce a good paper, the staff has to be up to date on school and community events which are important to the readers. This year's paper also covered current questions of a controversial nature to arouse student and teacher reaction.

Vica Gets Involved

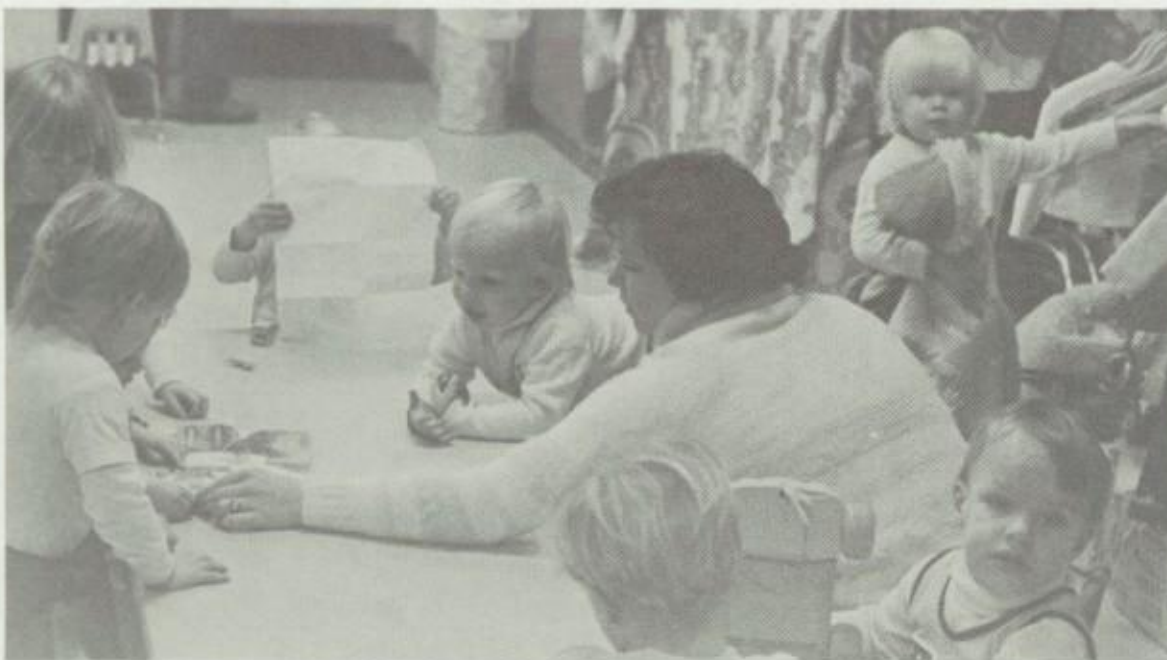

The Vocational Industrial Clubs of America is designed to give students experience in fields they would like to pursue in the future. "For instance," explains Michelle Pilar, "Vica arranged for me to work with a veterinarian." Michelle like other

Vica students received excellent on the job training.

Vica gives a person a chance to have responsibility while learning a profession. The students in Vica met every morning at seven to get a jump on the day. Most of their employers wanted them on the job at noon so they could squeeze into their schedule the required classes and still satisfy their job requirements.

Only the Strong Survive

Competition with volleyball as a fall sport for the first year meant that many schools dropped their field hockey teams. As a result, there were only 32 field hockey teams left in Illinois. Antioch was forced into playing experienced, tough, large schools, most of whom have played in state competition. However, as Beth Mueller stated, "We had a winning attitude even though we knew the odds were against us." And by the end of the season, the team looked as tough as their competitors. Antioch showed potential to be one of the strong to survive.

Girls' Tennis Bounces Back

The season began one week before school with eight girls out for the team. By the second week of school there were twenty-five girls on the team, all ready and willing to play tennis.

This year the team received their first trophy ever for finishing second in the Cary Grove tournament. In conference the girls took third over all, finishing the year with a 6 win, 7 loss record.

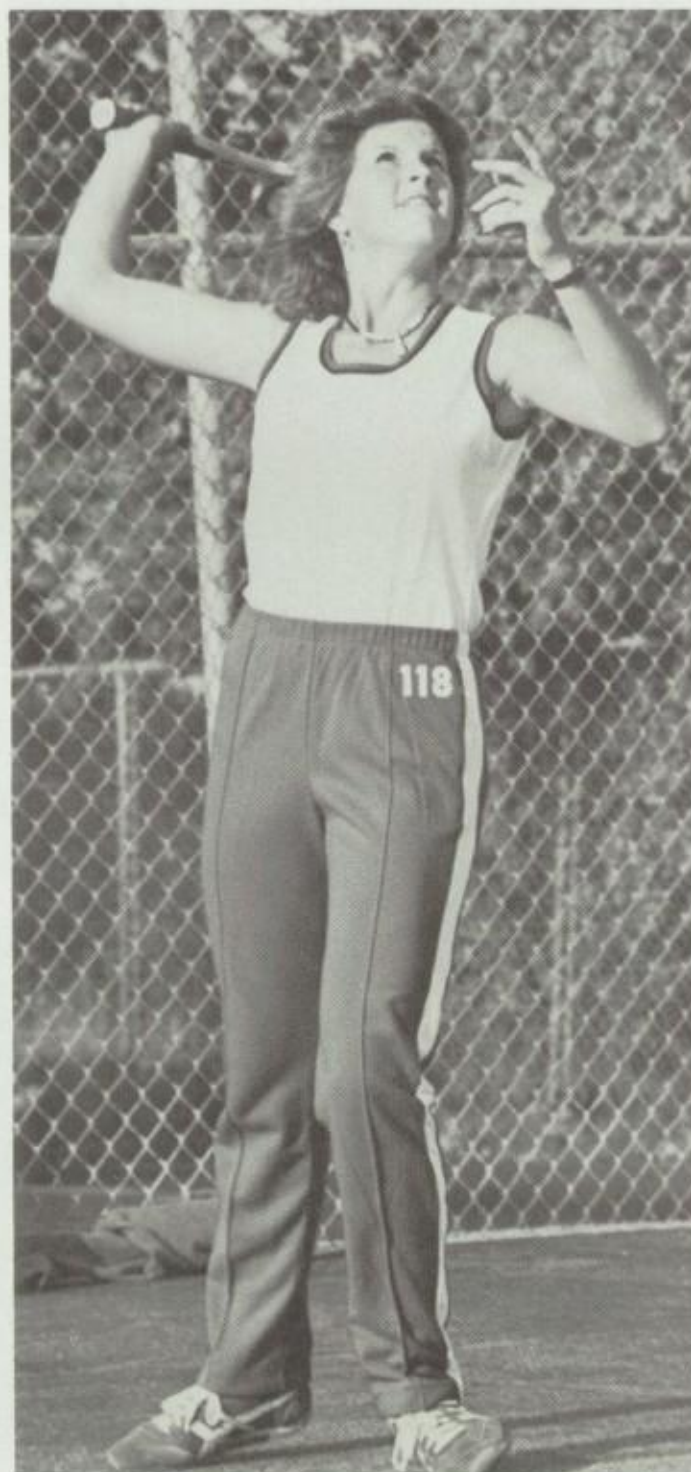

The sophomore team worked hard also. The girls went from good to best by the end of the season. They finished up league competition with a 6 win, 0 loss record taking first in conference.

Bowlers Achieve New Records

This year the girls' bowling team had a successful season. The girls improved their averages and set a couple of records. The team ended up with a 4th in conference, 3rd in districts, and an overall record of 9 wins and 8 losses. In spite of not winning the conference or district titles, A.C.H.S. bowlers set a record for accumulating the greatest number of 190-200 games and "500" 3-game series ever bowled in a season.

Varsity Ends up 7-11

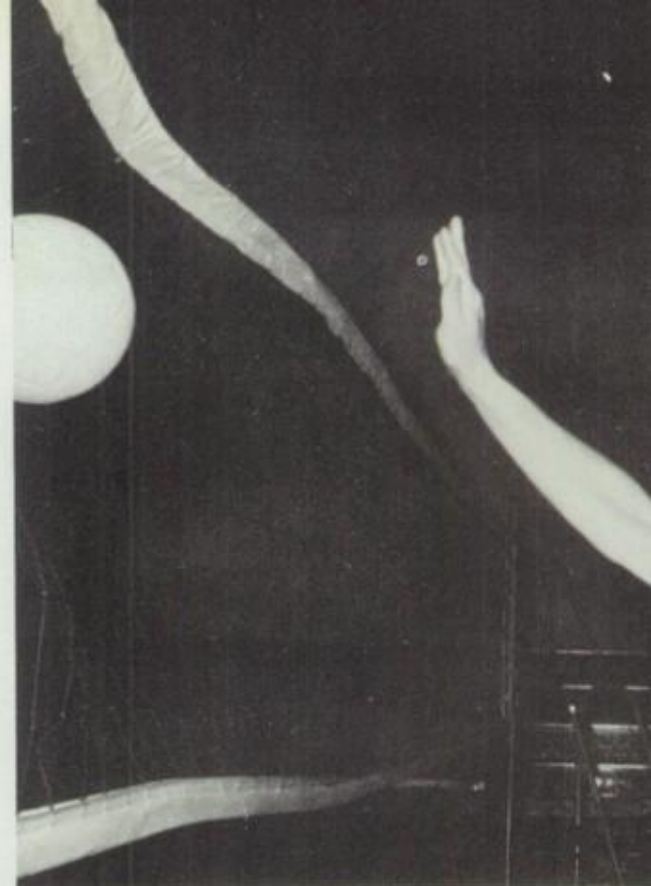

The team had a rough season this year and ended up with a record of 7 and 11. Although this may sound gloomy, the team improved greatly by the end of the season. They lost some close games and were one of only two teams to beat the conference champs. Since the team was mainly sophomores and juniors, the experience they gained this year should carry over next year.

Girls Share Conference Title

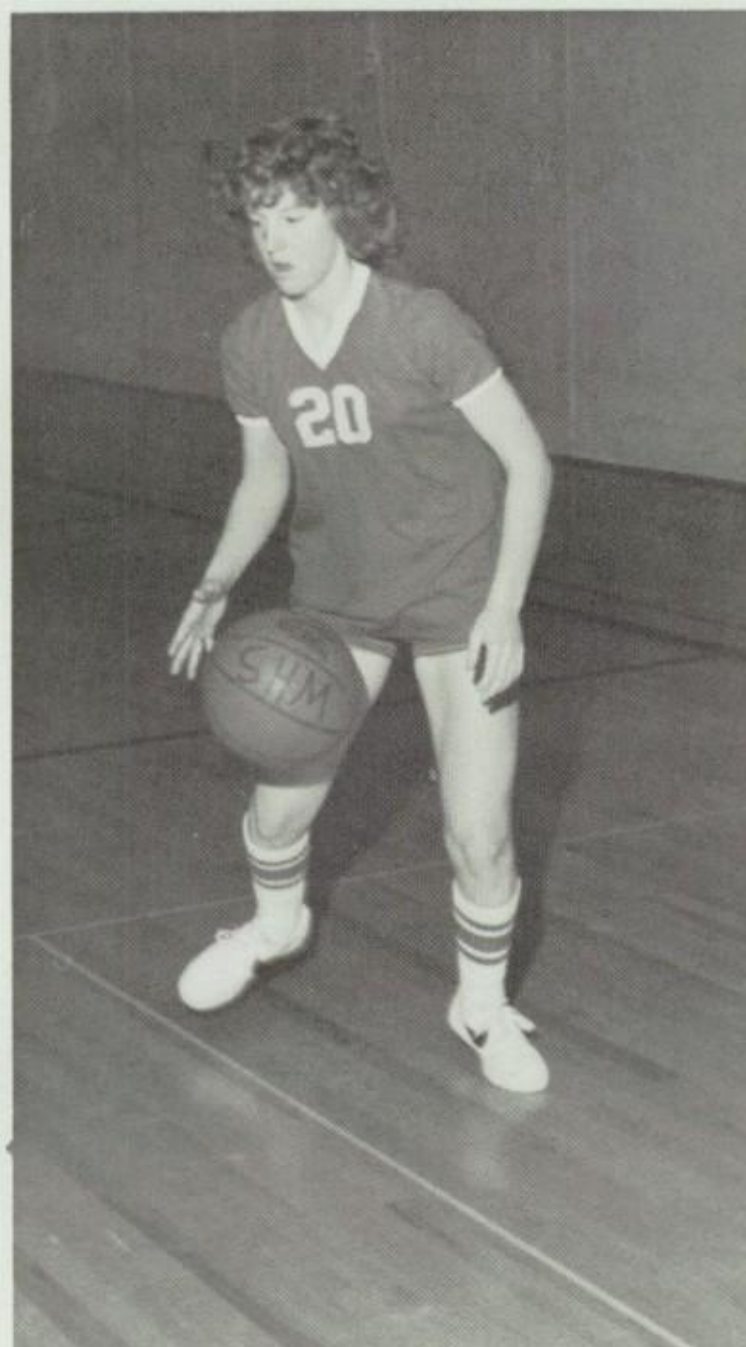

Our Girls' Basketball Team had a highly competitive season this year with eight of their conference games decided by three points or less. The high scoring offense added excitement to the games and contributed to their conference record of 10 wins and 4 losses. This placed them first, sharing the title with Grant and Wauconda.

There was some lack of consistency in the team's strength, however, this is to be expected for a team of largely underclassman. This year's accomplishments took girls' basketball at Antioch a long way.

Sequoits Finish Strong

The Varsity Football Team played much better than their three and six record may indicate. Their confidence and determination won them their final games. Coach Wapon sums up the season by saying, "A total of 15 points separated the 1978 Sequoits from a first place NWSC finish. The Antioch Varsity lost heartbreaking games to Warren, Lake Zurich, Stevenson, and Grayslake before exploding on Wauconda for a Homecoming victory." Their self-confidence helped make 1978 a successful season.

Even though the record may not show it, the Antioch Sequoit football team and our school spirit made 1978 a successful season.

Sophmores Show Pride

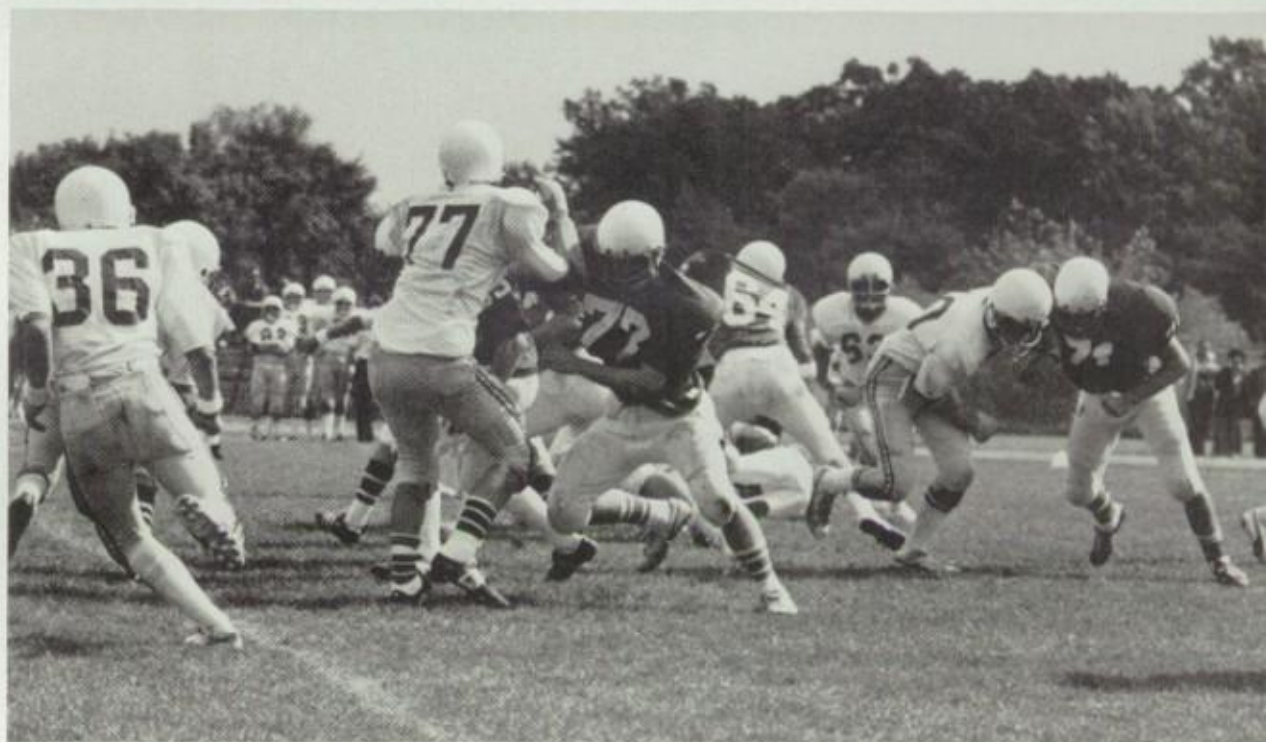

The Sophomore Football Team 4-5 record is an accurate statistic, but not an accurate summary of the season. According to Coach Baba, "It was quite a successful season. Their ability to learn and display a new offense-defensive system successfully shows their full concentration." Their final standing was a 3rd place tie in the conference.

An outstanding personal achievement, was also made by Mark Pomoszak who gained 750 yards rushing with a 5.9 yard average per carry. However, even this doesn't reflect the whole team's strength and pride.

Freshmen Prove to be WINNERS!

The Freshmen Football Team had an outstanding season in 1978. When interviewed, coach Pechauer explained, "We were blessed with good size and better than average speed. The best thing going was the team's confidence; they knew they were winners! They never gave up, and it really paid off. With a record of 6 wins and 2 loss, we placed 2nd in conference." These freshmen are great and will be an important contribution to our Antioch football teams in the future.

Runners Qualify for Sectionals

The Boys' Cross-Country Team began on shaky ground; but after their defeat to Stevenson, they ran on solid ground and won regularly. The team finished with an 8 & 3 record which secured them 3rd place in the conference.

Coach Kasuboski summarized the season overall by saying "This was an outstanding year in a couple of ways: the Antioch freshmen three mile time of 18:10 was beaten by Alan Ware with a time of 18:02, and the varsity team qualified for sectionals for second time in the history of Antioch crosscountry."

First Girls Take First

For the first time the Northwest Suburban Conference formed a separate girls' Cross Country Conference. For a triumphant beginning, the female Sequoits captured the 1st place title. The fact that the team was a young team meant that the girls had confidence as well as skills. Their determination though, won over their inexperience as the record shows.

Varsity Golf Claims Conference

The Varsity Team went undefeated in conference this year and won the conference tournament at the end of the season. The golfers lost only three meets and won thirteen. Their conference record allowed them to go to the district meet where they tied for a disappointing fourth place. Coach Harold Abramson said, "Only two seniors graduating this year and three juniors returning will give us a young team next year just like this year." They're determined to make their experience pay all the way to state competition.

ACHS Defeats Grant In Regionals

Once again the Antioch Sequoits took first place in Regional to go on to Sectional play at Rockford. In the Regional Tournament Antioch beat Grant 56-55 in a typical Grant-Antioch battle to take first for the fourth time in six years.

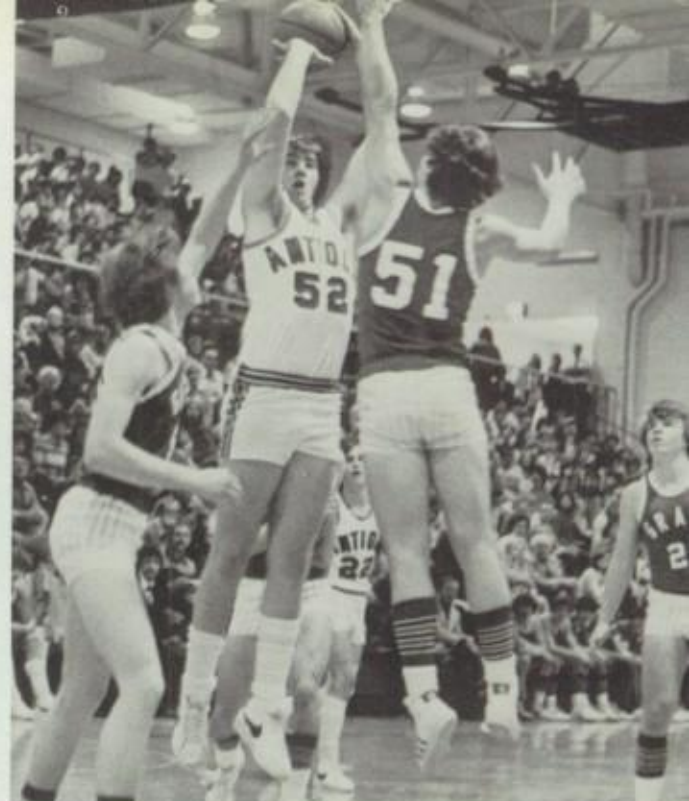

The conference record was not quite as smashing, 8 wins 6 losses, which gave the team a fifth place standing. After their season, Coach Roger Andrews said, "They were a hardworking team, and I am proud of their achievements. They did a very good job all year."

Sophomores Are Tops

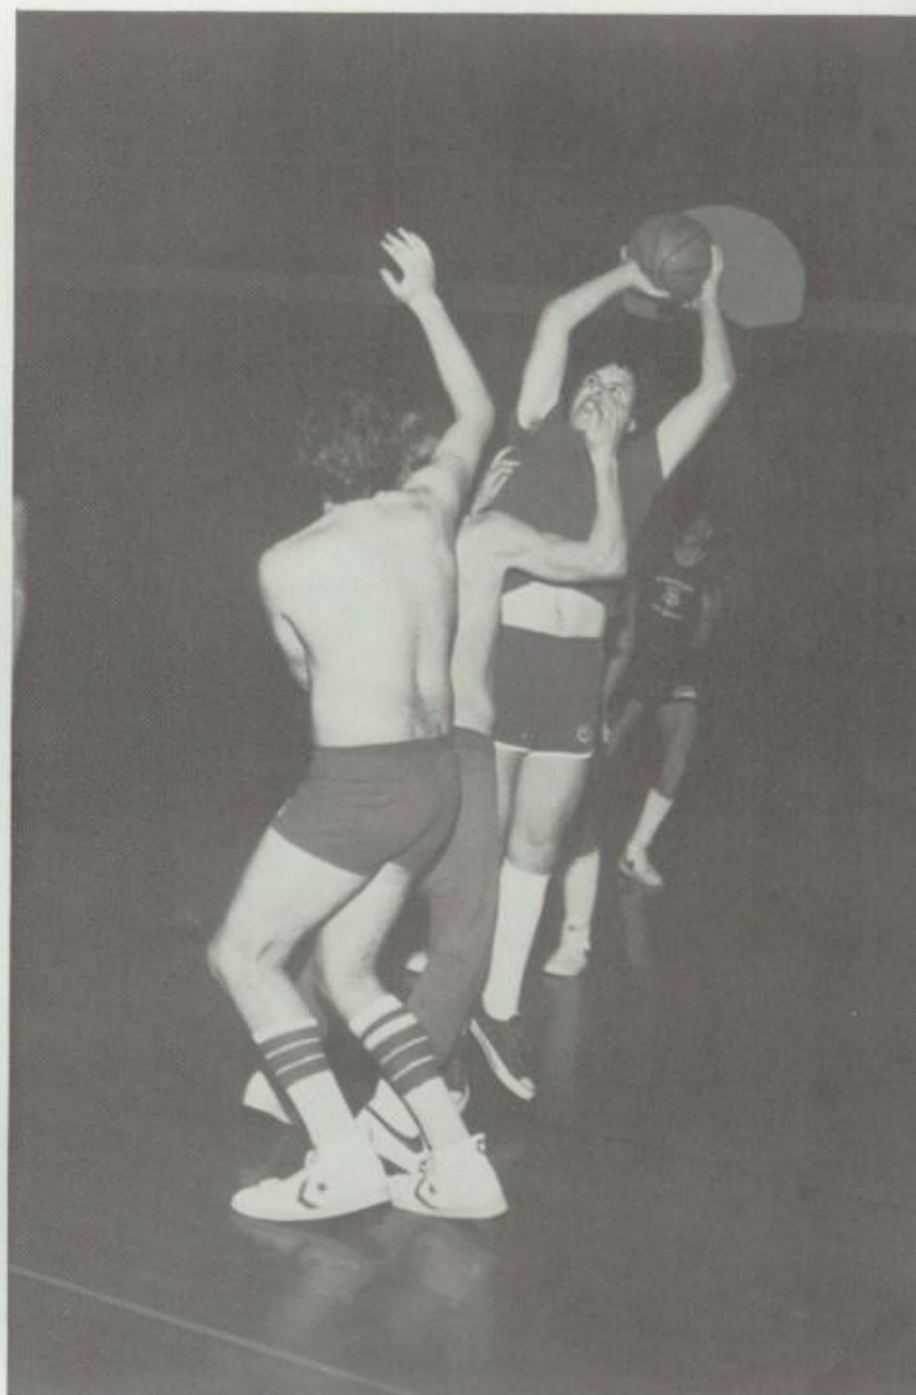

The Sophomore Basketball Team completed this season with a fine overall record of 19 wins and 7 losses. Highlights of the season included winning the conference championship with an 11-3 record and capturing the consolation championship in the Zion-Benton Christmas Tournament.

As a team the sophomores finished atop the conference standings during the past two years and show potential for the future.

Like the sophomores, the Freshmen Team was busy gaining valuable experience to pay off in the next few years. They finished the season with a record of 10 wins and 10 losses, which earned them a respectable fourth in the conference. Their enthusiasm and hard work shows their promise for the future.

Concentrating on the game, Freshman Alan Ware passes to a team mate for the drive into the basket.

Basketball isn't all glamour-Sophomore Pete Weber shows us that much hard work goes into practices.

18 Wins Sets Record

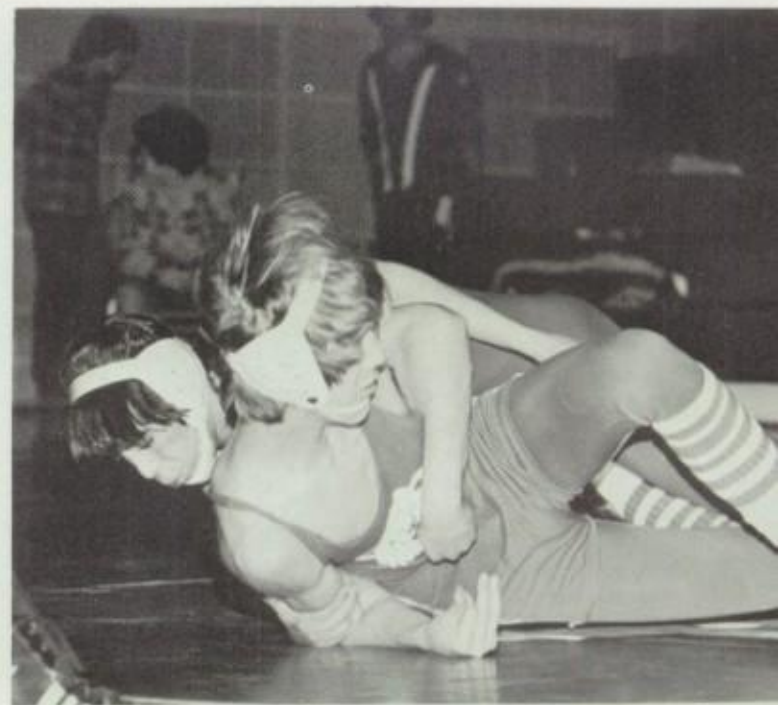

The Varsity Wrestling Team set a new record this year by winning 18 meets in a season. This is the most wins a varsity team has ever accumulated. This hard work earned them second place in conference. In tournaments the team did well, also, taking second at the Rich South Tournament. In addition, the team took a third in districts, a fourth in sectionals and Jon and Marvin Gibson went down state. The team put fourth their best effort for Anti-och.

Throughout the wrestling season the **Mat Maids** helped the coaches by keeping score and taking notes. They worked at the scorers tables keeping count of the points achieved and the way the wrestlers got them. The job the **Mat Maids** perform was important enough that the coaches used the **Mat Maids'** notes to improve the wrestlers' techniques at practice.

Another Good Take Down On The Mats

The Junior-Varsity Wrestling Team had a good year with 13 wins and 5 losses. In addition to its good showing the team set the school J.V. record for winning by the most points against Stevenson: 67-0.

The freshmen wrestlers did a great job this year, also, and broke many individual records. The team won a 3rd place trophy at the Grayslake Invitational Freshman Tournament and took 4th in conference.

The inexperienced wrestlers proved themselves on the mats throughout the year and as Coach Steve Wapon points out, "The team started out the year with many inexperienced wrestlers had improved with each meet. Overall, the freshmen showed great wrestling ability."

Taking control of his opponent's hands, Bob Thain moves to throw him off.

Cheerleaders: an Asset to Everyone

Antioch Cheerleaders back our teams whether they are winning or losing. Their aim is to create a good atmosphere for the players with their cheers and to channel the crowds enthusiasm.

Being a cheerleader is a hard position to fill. It is time consuming and takes someone who is very dedicated, both to the school and the team. Their attendance at practices is essential to their performance at games and other activities. Yet, their greatest asset is their inspiring attitudes.

Sequoia Scope

The following three pages are a **summary** of the major events in Antioch, the United States, & the world. These occurrences most likely affected all students somehow in 78-79.

Weather

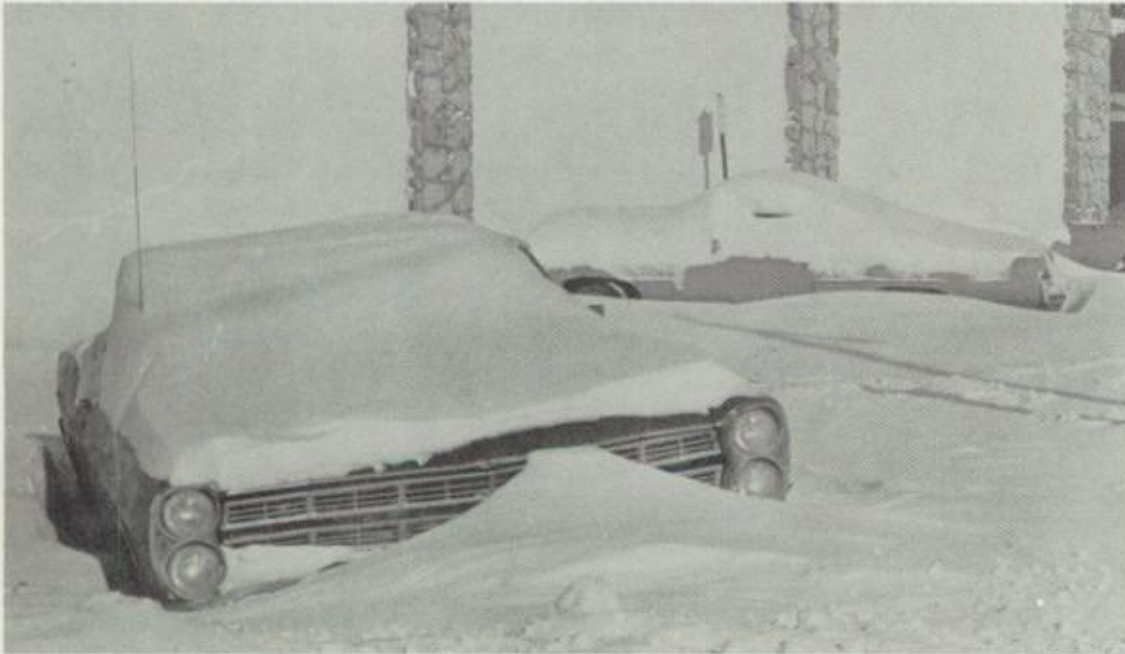

Sub-zero temperatures were not unusual during the unforgettable winter of '79. Eleven consecutive days of temperatures below zero was marked in the record book for January of 1979.

The weight of one cubic foot of freshly fallen snow is approximately 25 pounds.

The 82.3 inches of snow that had fallen during the winter of '78 was not a long-lasting record. On February 12, 1979, a total of **84 inches** of snow had fallen, thus, breaking the year old record.

The **coldest day** of the winter of '79 came on January 11 when the temperature plummeted to a record breaking -29°F . A 15 m.p.h. wind resulted in a chill factor of a numbing -72°F . The previous record of -25°F . was a 75 year old record set in 1904.

Because of **continuing bad weather**, the closing of O'Hare Airport was not an unusual announcement. O'Hare had shut-down only 6 times in its history of 18 years. During the 78-79 winter, the world's busiest airport was forced to completely close two times. Because of blowing and drifting snow, however, the airport was forced to operate on only one of its seven runways on several occasions.

Local Events

In order to curb the drug traffic at ACHS, a **search dog** from the U.S. Customs Service was bought to Antioch. Along with his handler, the labrador checked every locker. 10 students were suspended for possession. The administration said the search was a positive effort to try to eliminate drug traffic.

The **construction** at ACHS is finished. It produced four new classrooms, a staff center, a nurses office, and an A.V. center. After some discomfort to the 1800 students and 100 teachers, air-conditioning was installed in December.

As a result of a referendum, Antioch residents will soon have a **new fire station**. The station is scheduled for completion sometime in June. The 1.2 million dollar firehouse will be located on the corner of Orchard Street and Holbeck Drive.

The operation of school was also affected by the heavy snow storms. The school was allowed five **snow days** by the state, four of which were used by the end of January. The cost of removing the snow for the High School was approximately \$2,000.

The great accumulation of snow put a tremendous pressure on the roofs of all buildings. As a result of this, many roofs began to collapse. Among the many that collapsed was that of the **K-Mart** store in Round Lake Beach. An estimated 15 to 20 tons of steel and snow crashed through the roof. Although there were 30 people in the store at the time, no one was injured.

Entertainment

Food fights and toga parties were re-born in 1978 because of the movie **Animal House**. This movie portrayed fraternity life in the early 1960's. It also started several TV takeoffs.

Billy Joel emerged in 1978 with his album the *Stranger*. This was followed by his next big album 52nd Street, making him one of the most popular recording artists of today.

Disco during 78-79 continued to rank highly as one of America's favorite pasttimes. The 5 billion dollar-a year industry continued to grow as fast as it's beat.

It's a bird! It's a plane! It's a 20 million dollar **Superman**. The heroics that made Superman a success 25 years ago for television are doing the same for the new movie starring Chris Reeves.

Sports

Woody Hayes, the dynamic, yet many times vicious head football coach Ohio State was fired after punching a member of the opposing team during the Gator Bowl. For Woody this was not the first offense; he has kicked and punched cameramen and threatened reporters before.

Muhammad Ali regained his world heavyweight boxing title for the third time by beating his opponent Leon Spinks. Ali now holds the title for the number of times he has acquired the coveted title.

Entertainment Cont.

The popularity of **Steve Martin**, a wild and crazy guy, has grown steadily during the past year. Due to his appearances on Saturday Night Live, The Tonight Show, and his comedy albums, Steve Martin has become one of the most popular comedians of today.

World Wide Events

The biggest national shock of the year came in October when over 900 bodies were discovered in Guyana, South America. The suicide and murder victims were found after the ambush and murder of a U.S. Congressman there. The people were members of a religious cult that originated in the U.S. under the direction of the Reverend Jim Jones. The episode was labeled the "**Jonestown Massacre.**"

Diplomatic Relations with the People's Republic of **China** became a reality this year. Vice Premier Teng visited our country in early 79 for the first time. The U.S. and China also exchanged ambassadors. At the same time the U.S. ceased to recognize Tawain because of our new ties with China.

The leader of the Roman Catholic Church, Pope Paul VI, died in August. Pope John Paul I came to lead the church shortly after. Only 34 days later he died in his sleep. Pope John Paul II, from the communist country Poland, is now the Vatican leader.

The **test-tube baby** was a scientific breakthrough. The first one was born in England followed by yet another shortly after. This is the first time success-fertilization has occurred outside the womb.

The rioting in favor of a religious leader in **Iran** finally resulted in the exiling of the Shah of Iran and the overthrow of the government of Backtiar. The fighting in Iran has cut off a noticeable amount of oil to the United States. Many officials fear that because of this, gasoline prices will soar.

The nation focused it's eyes on a suburban house near Chicago where a total of 28 murdered bodies of young men were found buried in a crawl space. The suspect being held is **John Gacy**. A contractor, Gacy worked in Antioch for the summer of '77 while re-modeling a drug store.

Former Vice President and Governor of New York State **Nelson A. Rockefeller** died of an apparent heart attack in January. He was the grandson of the grandson of the world's first billionaire, oil tycoon John D. Rockefeller. Nelson was in politics for more than thirty of his seventy years. He sought the presidency 3 times but never achieved it.
